

# Patient Discussion Guide— Follow-Up Visits

Not sure what to ask your eye care team during your next appointment? This guide can help.

## Eyes and Vision:

- How well do I see in each eye (what is my visual acuity)?
- How can I monitor my vision for changes at home?
- How often will my eye care team need to check my eyes and vision?
- Is there anything I should do to help protect my eyes?

## Treatment:

- What is the name of the eye treatment I'm currently on?
- How often do I need to get treatment?
- What are the potential benefits of this treatment?
- What are the potential side effects of this treatment?
- What if I have to miss an eye care appointment or a scheduled injection?
- How can I tell if my current treatment is working?
- What are the different treatment options available for my condition?
- I'd like to learn more about ways to help with the cost of treatment. What support is available?
- Can you tell me more about EYLEA and if it's right for me?

## Lifestyle:

- Where can I find additional resources related to my condition?
- Is there anything I can do to help improve my condition?
- How do I explain my condition to others?

## Living With Low Vision:

- Do you have any resources or tips to help me live with low vision?
- How can I best maintain my normal everyday activities?
- Is it okay for me to drive?

## Notes:

It's a good idea to be prepared before you arrive for your next appointment. Use this space to write down any symptoms you're experiencing, additional questions you may have, or notes you want to share with your eye care team.

## INDICATIONS

EYLEA® (aflibercept) Injection 2 mg (0.05 mL) is a prescription medicine approved for the treatment of patients with Wet Age-related Macular Degeneration (AMD), Macular Edema following Retinal Vein Occlusion (RVO), Diabetic Macular Edema (DME), and Diabetic Retinopathy (DR).

## SELECT IMPORTANT SAFETY INFORMATION

EYLEA® (aflibercept) Injection is a prescription medicine administered by injection into the eye. You should not use EYLEA if you have an infection in or around the eye, eye pain or redness, or known allergies to any of the ingredients in EYLEA, including aflibercept.

**Please see additional Important Safety Information on next page and accompanying full Prescribing Information.**

Explore [www.EYLEA.us](http://www.EYLEA.us) and the [EYLEA YouTube channel](#) to learn more about certain retinal diseases, symptoms, EYLEA as a treatment option, and resources available for support. Ask if EYLEA is right for you.

## INDICATIONS

EYLEA® (aflibercept) Injection 2 mg (0.05 mL) is a prescription medicine approved for the treatment of patients with Wet Age-related Macular Degeneration (AMD), Macular Edema following Retinal Vein Occlusion (RVO), Diabetic Macular Edema (DME), and Diabetic Retinopathy (DR).

## IMPORTANT SAFETY INFORMATION

- EYLEA® (aflibercept) Injection is a prescription medicine administered by injection into the eye. You should not use EYLEA if you have an infection in or around the eye, eye pain or redness, or known allergies to any of the ingredients in EYLEA, including aflibercept.
- Injection into the eye with EYLEA can result in an infection in the eye and retinal detachment (separation of retina from back of the eye). Inflammation in the eye has been reported with the use of EYLEA.
- In some patients, injections with EYLEA may cause a temporary increase in eye pressure within 1 hour of the injection. Sustained increases in eye pressure have been reported with repeated injections, and your doctor may monitor this after each injection.
- There is a potential risk of serious and sometimes fatal side effects related to blood clots, leading to heart attack or stroke in patients receiving EYLEA.
- Serious side effects related to the injection procedure with EYLEA are rare but can occur including infection inside the eye and retinal detachment.
- The most common side effects reported in patients receiving EYLEA are increased redness in the eye, eye pain, cataract, vitreous (gel-like substance) detachment, vitreous floaters, moving spots in the field of vision, and increased pressure in the eye.
- It is important that you contact your doctor right away if you think you might be experiencing any side effects, including eye pain or redness, light sensitivity, or blurring of vision, after an injection.
- EYLEA is for prescription use only. For additional safety information, please talk to your doctor and see the full Prescribing Information for EYLEA.

**You are encouraged to report negative side effects of prescription drugs to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch), or call 1-800-FDA-1088.**

**Please see accompanying full Prescribing Information, which is also available at [EYLEA.com](http://EYLEA.com).**
